Advice on head lice with **NHS Choices**:

Co-ordinating bug busting days across the country can help to prevent head lice.⁴

Families succeed using the uniquely comfortable and efficient bevel-edged Bug Buster® comb.
Using metal nit combs instead is not recommended.

1 Bug Busting® reduces head lice, social stigma and cuts healthcare costs – as demonstrated by Ibarra *et al.* *Journal of Clinical Nursing* (2007) 16: 1955-1965. 2 Most families use their original Bug Buster® combs for the detection and cure of new infestations for at least a year – sustainability data presented by Hill *et al.* (2006) to the Third International Congress on Phthiraptera (Lice). 3 Independent study - Hill *et al.* (2005) *British Medical Journal* 331: 384-7.
