

Barnwood CE Primary School - Geography Statement of Intent

At Barnwood C of E Primary School, we believe that a quality Geography curriculum should inspire our children to foster a curiosity about the world around them, a deeper understanding of their local community, the wider world and the language to describe the physical and human processes that occur. Children will become confident in the art of speaking and listening using key vocabulary which they use appropriately and effectively in discussion and use as an effective tool for communication as well as to further their learning.

We aim to provide a Geography curriculum which follows a clear pathway of progression, and fosters a positive attitude to lifelong learning and is driven by our core vision of *'loving our neighbour and working together to be the best we can be, for the good of all'*.

Our Christian values provide a strong foundation upon which to build and St Lawrence Church with our surrounding community of Barnwood are placed at the heart of our school. Children will explore their British values within a multicultural society and how these compares to the wider world around them. Children at Barnwood will develop a deep understanding of the diverse world we live in and understand how their actions, those of others and physical processes can impact on our world both now and in the future.
