

Intent Statement CPSHE

At Barnwood we believe CPSHE helps to give pupils the knowledge, skills and understanding they need to lead confident, healthy, independent lives and become informed, articulate, active, responsible citizens.

We want pupils to develop their understanding of themselves as individuals, their role within the community and as members of the wider global community. They learn to recognize their own worth, work well together to be the best they can be and become increasingly responsible for their own learning.

They reflect on their experience and understand how they are developing personally and socially, tackling many of the spiritual, moral, social and cultural issues that are part of growing up.

Implementation

Pupils are encouraged to take part in a wide range of activities and experiences across and beyond the curriculum, contributing fully to the life of our school and community.

Our school councillors, librarians, Barnwood Rangers (peer mediation) and house captains take the lead in organising and running charity events, inter-house competitions and activities.
