

Richard Graham, MP for Gloucester visits Barnwood C of E Primary School

On Friday 20th January 2023 Richard Graham visited us in the morning along with Cllr Laura Booker.

Richard Graham spoke to our Student Council and discussed the things they enjoy and the things they would like to improve in school and in our local area.

(faded road markings, sun-bleached school warning signs and the pot holes on our local roads were some of the things they brought to his attention as well as the poor state of our school playground)

The Student Council were able to ask Richard Graham about his work as the Member of Parliament for Gloucester and found out about some of the important work he does for our community.

After speaking with the Student Council, Richard Graham then spoke to our whole school in a special assembly.

He talked about the tree planting that is happening at the former Hempsted landfill site and his aspiration for every child in a Gloucester school to plant a tree as part of the work to create a super woodland.

He also spoke about the King's Talks where city archaeologist Andrew Armstrong will share the mysteries and secrets of what lies below our feet and behind the walls of existing buildings to help children in Gloucester learn the story of our city.
